

An Animal-Care Observation Page

Ages 6+, with direct adult supervision

Name: _____ Date: _____

Write what you observe, not a diagnosis. An adult chooses appropriate tasks and handles care decisions.

Observation: the water bowl was empty. Next step: tell the adult. This sheet is not a veterinary checklist or treatment plan.

Date and time:

What I noticed:

What I told the adult:

An adult-approved task we did together:

Give animals space. Do not disturb eating or sleeping dogs. Adults supervise interactions and medication. Wash hands afterward. CDC: [cdc.gov/hygiene/about/hygiene-practices-around-animals.html](https://www.cdc.gov/hygiene/about/hygiene-practices-around-animals.html)

Workspace & adult notes

Answer check / discussion

1. Record the actual time.
2. Describe what you saw or heard.
3. Name the adult who took responsibility.
4. Only record tasks the adult approved.

What was clear? What would we change next time?
